About GROKU

Grok University aims to be the leading education-focused decentralized community bringing smart contracts and NFTs together. Powered by $GROKU token and launched on Solana Network, we provide innovative DeFi solutions and engaging community governance.

Professor Block

At the core of our ecosystem is Professor Block – an AI-powered chatbot using advanced intelligence called Grok. Professor Block makes understanding complex topics like blockchain accessible via friendly Telegram conversations.

Company Vision

Our vision is a future where decentralized models and blockchain-enabled experiences are accessible and understood by people from all backgrounds. We envision empowering millions to actively participate in and benefit from Web3 thanks to AI-driven tools that make these innovations relatable.

Company Mission

Our mission at Grok University is to accelerate mainstream adoption of blockchain technology and the emerging decentralized web through education, community building, and the development of easy-to-use products powered by artificial intelligence.

$GROKU Token

The native utility token, $GROKU, is the centerpiece of our ecosystem enabling full participation across Grok University products and services including Professor Block.
$GROKU serves functions like:

- Access and Usage Rights - Holding tokens unlocks features or boosts platform capabilities
- Community Governance - Token holders shape future development through voting
- Incentives & Privileges - Additional benefits are granted based on staked $GROKU
- Value Capture - As more adopt services, increased utility drives token value

$GROKU to Solana as an SPL token to benefit from its superior speed, low fees, and growing ecosystem.

TOKENOMICS

The native utility token, $GROKU, facilitates participation across all Grok University products and services including Professor Block.

It is an SPL token on the Solana blockchain with fair distribution and funding mechanisms. Key details:

- Total Supply: 100,000,000
- 90% distributed via IDO, staking rewards, liquidity incentives
- 5% Grok University reserve
- 5% Community Pool
- 10% tax on buys and sells:
  - 5% to staking yield
  - 5% to platform development

The taxes and allocation model ensure adequate resources for ongoing advancement while rewarding $GROK holders and platform contributors.

Our Journey Beyond The Space

Q4 2023

* Build Community Engagement
* Token Launch and Distribution
* Official Launch of $GROK Token
* Activation of Grok Staking
* Grok Swap Platform Goes Live
* Marketing Push: Social Media Teasers

Q1 2024

* Community Ambassadors
* Influencers and Crypto Communities
* Deployment of Professor Block
* Grok Academy Development
* Listing on Major DEX Exchanges
* Worldwide Trending Campaign

Q2 2024

* Reach 500+ Token Holders
* Daily Virtual Community Sessions
* Tier 1 Key Opinion Leaders (KOLs)
* Fast Track Listing of (CMC) and (CG)
* Official Launch of Grok Academy
* Token Airdrops and Growth Incentives

Q3 2024

* Achieve 10,000+ Token Holders
* TikTok and YouTube Marketing
* Partnerships and DeFi Influencers
* Additional DeFi Functionality
* Continuous Community Engagement
* Transition to a DAO
